Virar, Maharashtra, India

Summary

I'm a senior software engineer with 4+ years of experience designing and building scalable, production-ready web systems. My work spans frontend, backend, and infrastructure — but my strength lies in engineering reliable systems, not just shipping features.

I've worked across the full lifecycle of applications: from architecting APIs and databases, to deploying, monitoring, and scaling services in production. I care deeply about clean abstractions, performance, security, and long-term maintainability.

I thrive in roles where I can plan, design, test, and deploy applications end-to-end, utilizing CI/CD pipelines to ensure seamless delivery.

I enjoy connecting with fellow tech enthusiasts and industry professionals— feel free to reach out at chouhan.monu07@gmail.com.

Experience

GreyAxis

4 years 3 months

Senior Software Engineer

January 2026 - Present (2 months)

Vasai Virar, Maharashtra, India

Senior Full Stack Developer

December 2023 - January 2026 (2 years 2 months)

Vasai Virar, Maharashtra, India

Full-stack Developer

December 2022 - November 2023 (1 year)

Vasai Virar, Maharashtra, India

Web Developer

March 2022 - November 2022 (9 months)

Vasai Virar, Maharashtra, India

Junior Web Developer

December 2021 - February 2022 (3 months)

Vasai Virar, Maharashtra, India

Education

Bhavans College

Bachelor of Science - BS, Physics · (2017 - 2020)
