Summary

I am a Senior Full Stack Developer with over 4 years of experience
in building high-quality, scalable applications. With expertise in
designing, developing, testing, and deploying robust applications, I
leverage the best-suited tech stack to deliver efficient, performance-
driven solutions. I'm skilled in end-to-end development and
passionate about implementing CI/CD pipelines to streamline
deployment and ensure continuous improvement.

Here are a few examples of my work:
1. SSO – Developed a single sign-on system that provides secure
access across multiple platforms.
Tech Stack: Go, Iris Web Framework, Docker, AWS, Dokku
(https://sso.torusdigital.com/)

2. Lawn Care App – A comprehensive app for managing lawn care
services, handling everything from scheduling to service tracking.
Tech Stack: React, Redux, RTK Query, TanStack Query, Tailwind
UI, Nest.js, Supabase, Prisma, Git Actions

3. Shopify Theme/App Development – Built custom themes and
applications to enhance Shopify storefronts, ensuring optimized
performance and usability.
Tech Stack: Remix, PostgreSQL, Strapi, Liquid, HTML, CSS,
Javascript

…and many more. My work is driven by commitment to quality,
automation, and continuous improvement, ensuring that each project
I take on is built to perform and scale.

I thrive in roles where I can plan, design, test, and deploy applications end-to-end, utilizing CI/CD pipelines to ensure seamless delivery.

I enjoy connecting with fellow tech enthusiasts and industry professionals— feel free to reach out at chouhan.monu07@gmail.com.
